

ICARO Confirmation and Cancellation Suite for SAP(COACS)

Overview

COACS is a SAP Add On for ECC and S/4HANA and offers:

- Processing of confirmations for SAP PP, PS, PM/SM and CO-PA within SAP, with unique functionalities to correct and cancel confirmations
- Re-processing of erroneous confirmations
 - Changing all fields of confirmations, and mass processing of important fields
- Integration into SAP BusinessApplicationLog and comprehensive lock mechanisms
- Configuration on plant level and BADIs
- and much more

! SAP Master data are provisioned via SAP Standard PDC channels.

Connect with a (Shop Floor) system

The subsystem has to import SAP master data and provide confirmations and cancellations in a given format. Ask us for data structure.
ICARO Middleware fully supports COACS.

Good to know

COACS runs with actual ECC and S/4HANA releases. Software maintenance contract is required, support contract can be tailored to your needs.
COACS is delivered via SAP transport in /ICARO name space.
